Quality Plastic Solutions

## Marker Posts

JFC are delighted to introduce our new and innovative range of Marker posts. Manufactured from UV stabilised polyethylene, they are pointed at the bottom for ground penetration.

JFC marker posts are suitable for several applications including; Delineator Posts, Electricity Cable Markers and Water Main Markers.

High visibility solution.

Will not rot, decay, shrink or decompose.

Extremely weather resistant  
(UV stabilised plastic).

Superior cohesion between plastic and the ground provides a strong and sturdy hold.

Will not splinter.

Custom post and reflective strip colours.

100% recyclable.

## Delineator Posts

JFC Delineator Posts are a strong and durable piece of traffic safety equipment for easy identification of roadway verges. They are used for several application including marking:

- Roadway verges or junctions
- Bridge narrowing applications
- Road verges for Wind Farm applications

Delineator Post Colour Options

## Snow Verge Posts

JFC Snow Verge Posts are used for easy identification of roadway verges in snow covered areas.

Reflective area on snow verge posts is 600mm high (3 strips of 200mm reflective material).

Snow Verge Post Colour Options

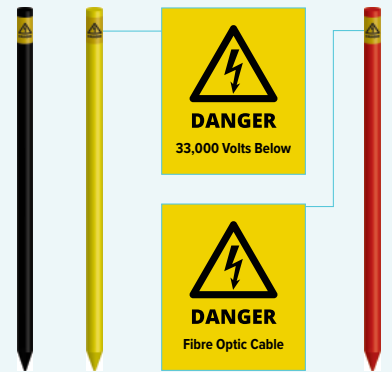

## Delineator / Snow Verge Posts Sizes

PRODUCT CODE	DIAMETER	LENGTH	CONSTRUCTION	INSTALL HEIGHT ABOVE GROUND	QUANTITY PER PALLET
STK70-1380-DP	70mm	1380mm	Hollow	1080 - 1230mm	218
STK95-1800-DP	95mm	1800mm	Solid (Composite)	1450 - 1600mm	105
STK95-1800H-DP	95mm	1800mm	Hollow	1450 - 1600mm	105

## Electricity Cable Markers

JFC Electricity Cable Markers are a strong and durable piece of safety equipment. They are used to identify the location of buried utility services and serve as a warning signal to personnel working or excavating in close proximity to pipe or live cables. They also assist in preventing accidental damage to underground utility services and help to avoid/reduce expensive search costs.

PRODUCT CODE	DIAMETER	LENGTH	CONSTRUCTION	INSTALL HEIGHT ABOVE GROUND	QUANTITY PER PALLET
STK95-1800-ECM	95mm	1800mm	Solid (Composite)	1450 - 1600mm	105
STK95-1800H-ECM	95mm	1800mm	Hollow	1450 - 1600mm	105

## Water Main Markers

JFC Water Main Markers are used to identify the location of water main connection points.

PRODUCT CODE	DIAMETER	LENGTH	CONSTRUCTION	INSTALL HEIGHT ABOVE GROUND	QUANTITY PER PALLET
STK70-1380-WMM	70mm	1380mm	Hollow	1080 - 1230mm	218
