

JFC Delineator Marker Posts

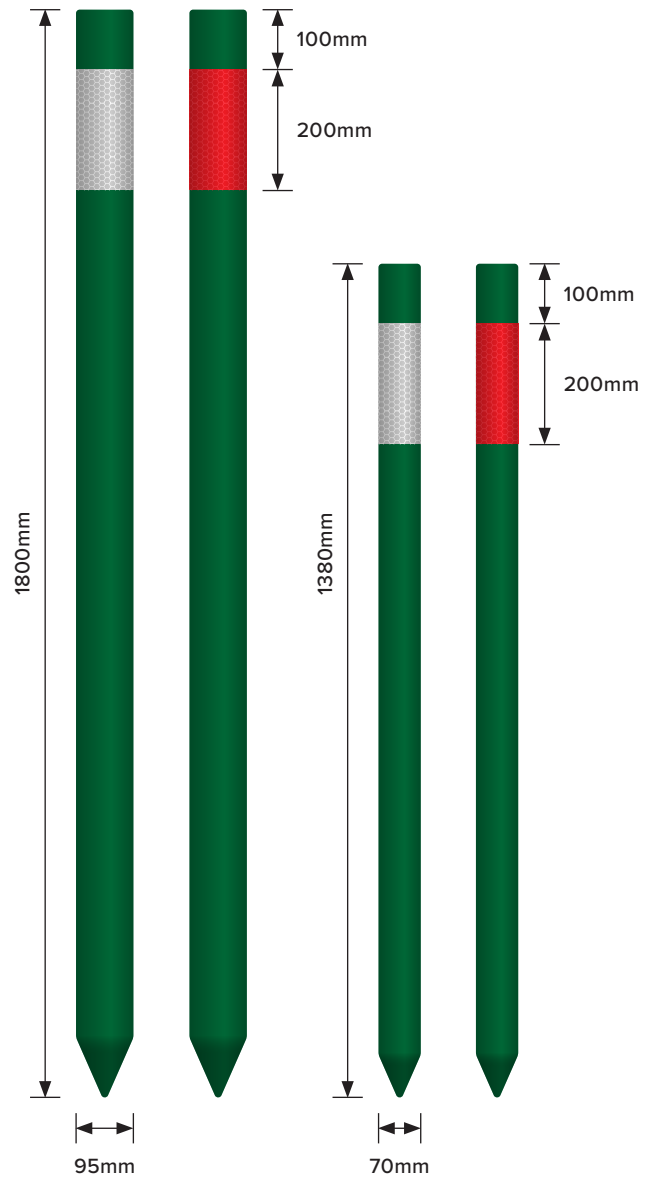

JFC Delineator Marker Posts are a strong and durable piece of traffic safety equipment for easy identification of roadway verges.

JFC Marker posts are extremely robust and durable with a life expectancy in excess of 30 years. They are pointed at the tip for ground penetration and have a flat cap suitable for manual or mechanical installation. They are used for several applications including marking:

- Roadway verges or junctions.
- Bridge narrowing applications.
- Road verges for wind farm applications.
